## ABOUT US

At Al-Haadi Enterprise we work diligently to design and manufacture cultured original customized garments as per our valued partner's requirement

Al-Haadi Enterprise is a manufacturing company that is specialized in producing garments for our business partners to use or sell them under their own brand names. Al-Haadi Enterprise is a company that aims to provide exclusive production services for our valued partners to bring their dreams a step closer to them.

Al-Haadi Enterprise has been operating successfully since decade with many major brands, we value each and every single client needs with respect. We facilitate our partners needs by providing them with high quality clothing that would showcase their unique style to the whole world.

Our production unit produces garments according to the brand's desire. We only uses fine quality fabric and work closely with brand's designer, we produce unique pieces just the way our partner preferred. The complete manufacturing process undergoes in different steps to get required accurate production this process saves our partners from all the hassle of setting up their own production unit.

01

## PRE-PRODUCTION CONSULTING

We assist our partners to sort out key components like selection of fabric and trim direction, estimated costs for each style, artwork or design for printing, fitting direction, delivery expectations timeline for finished project and all this is discussed in order to save their valuable time and money.

02

## DEVELOPMENT PROCESS

Once the designs, fabric materials, sizes, and patterns get approved, our qualified and proficient sample makers began making the sample. Each first sample is individually hand-cut with perfection and sewn together. Final samples are delivered to the partners for approval process.

03

## PRODUCTION PROCESS

After all the sample's design, fabric, material, cuts and trims are approved, production unit starts their work. Our team members will be in constant contact with concerns throughout the process of production and manufacturing by giving all the updates about order. Once production process completed, product will be ready for use.
